A young boy with short brown hair and a wide, joyful smile is holding a large white sign. He is wearing a bright green t-shirt and blue denim jeans. The sign he is holding has the words "POOL BALLS" written in a bold, dark blue, sans-serif font. The background is plain white.

POOL BALLS

POOL BALLS

FUNBALLS

These games provide an ideal atmosphere for children to sharpen their physical and mental skills. Providing a suitable opportunity for the child to communicate, contact with other children, show emotions and even creating an environment to facilitate learning and understanding of shapes as well as enhancing the child's five senses, are among the merits of appropriate toys. Ocean ball pools are regarded as the most important and efficient motion games in amusement parks, kindergartens and even at home.

HCH company has taken effective steps towards children's health by using **nanotechnology** in producing proper balls. We also, use **antibacterial** material and **edible colors** instead of toxic and harmful industrial ones, to add both charming appearance and making the surface safe for children and especially the very soft toddlers' skin. We guarantee our products to be hygiene and nonpolluting.

EDUCATIONAL GOALS:

- Development of movement and physical skills
- increasing the self-confidence's
- Increase hand-eye coordination
- Increasing the speed of the reaction
- managing the surrounding space

For some, ball pool balls provide a feeling of safety and calm when they are overwhelmed or anxious, and many users find the sensation of moving through ball pool balls to be calming.

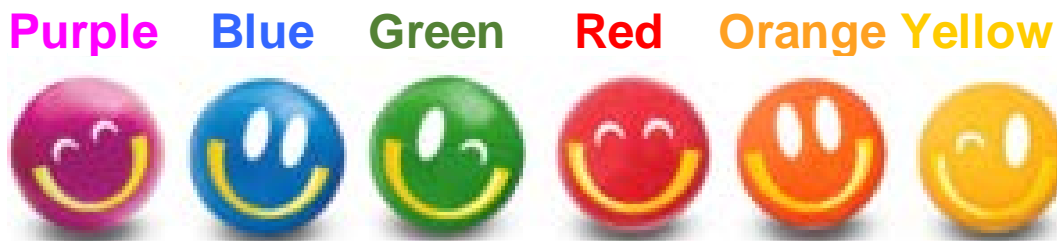

For more rambunctious play, throwing the balls across the pool can help engage their muscles and encourage gross motor skills. This can also be a great way to work through difficult emotions without doing any damage.

BABY FEEDING BOTTLE

The main concern of mothers has always been feeding babies.

This is much more important for premature babies or babies who are allergic to breast milk.

Our task is to produce and prepare products that can ensure the health of babies and help feed the breastfeeding period.

Our specialty products that are designed exclusively and with a feeding serum in the bottle nipple can significantly help solve this problem

- “**Mommi Gold**” products have received **CE** and **ISO 9001** certification, in addition, using high quality raw materials without **BPA**.
